2028 CQI CONTINUING VBR Measure Scorecard
INHALE Continuing SCPs

POs: Answer, CIPA, Genesys, GLPO, Holland, HVPA, IHP, McLaren, Mosiac, PCP, PMC OPNS, UMMG, UPI

VBR Measurement Period: 09/01/2026 - 08/31/2027

VBR Reimbursement Period:

SCP: 03/01/2028 - 02/28/2029

Measure #	Weight	Measure Description	Points
1	15%	**Measure:** Practice Clinical Champion attends Fall and Spring Regional Meetings **Aggregation level:** Practice Level	
		Attends 2 Meetings	**15**
		Attends 1 Meeting	10
		No Attendance	0
2	15%	**Measure:** All INHALE participating providers (including practice Clinical Champion) attend at least one Lung Learning Lab (L3) from the 2027 series live or on-demand and completes the survey to mark the requirement as complete. **Aggregation level:** Practice Level	
		>/= 75%	**15**
		>/= 50% to <75%	10
		>/=25% to <50%	5
		< 25%	0
3	10%	**Measure:** Practice Clinical Champion or Practice Liaison logs into the Data Dashboard at least once per quarter during the measurement year and shares practice-level data with the practice participants. **Aggregation level:** Practice	
		Logs in 4/4 Quarters	**10**
		Logs in 3/4 Quarters	5
		Logs in 2/4 Quarters	0
4	20%	**Measure:** Complete **2** of the following engagement activities: 1. Complete a best practice form 2. Complete a Site Visit 3. Clinical Champion attends/watches an additional L3 4. Participating provider presents a case at an ECHO session 5. Clinical Champion watches the INHALE Nicotine and Vaping Tobacco Addiction video 6. Participating Provider consults with INHALE PharmD **Aggregation level:** Practice Level	
		Complete 2	**20**
		Complete 1	10
		Not Completed	0

Continuing PCP/SCP Scorecard Legend

General Expections: Responds to requests from INHALE Coordinating Center and your PO regarding INHALE related work in a timely manner (3 business days or as specified)	
Measure	**Description**
1	Practice Clinical Champion (as designated in the INHALE Admin Portal, even if not a participating MD/DO) is required to attend both Fall and Spring Regional meetings. Dates will be provided at least 45 days in advance. Practice Liaisons (as identified in the Admin Portal) are not required to attend but are encouraged to attend. Clinical Champion must attend 90% of each of the meetings to be counted toward ahcieving the measure. In the event the meeting is held virtually, cameras stay on and are directed at the attendee for the entirety of the meeting or attendance will not be counted toward the measure. Adherence to any additional requirements specified for participation in virtual format is required for attendance to count toward the measure. A proxy may be requested to ateend on rare occassions and within at least 72 hours notice. If a proxy has attended for the Practice Clinical Champion in the previous year, the substitution may not be granted and a loss of VBR points may occur. A proxy must be a liscensed medical professional such as MD, DO, PA, NP, RT, PharmD, or RN. MAs are not acceptable proxies.
2	All participating providers (including Practice Clinical Champion) must attend an in-person or watch an on-demand L3 module from the current 2027 series. In addition to viewing the content, completion of attendance survey is required; CME survey is optional. Completion of the CME survey will not be counted toward meeting attendance, nor will watching a previous Measurement Year module.
3	The Practice Clinical Champion will obtain a login from MDC to review the INHALE Data Dashboard at least quarterly throughout the Measurement Year. The Practice Clinical Champion should share the practice performance level data with all other INHALE participating providers at their practice(s). This measure follows the Measurement Year quarters (Sep- Nov; Dec-Feb; Mar-May; Jun-Aug).
4	**1. Best Practice Document:** Submit a brief description of an intiative undertaken at the practice to improve a measure from the INHALE Data Dashboard. This form is available in the Admin Portal. **2. Complete a Site Visit:** Either by volunteering or by request from the Coordinating Center, participate in a Site Visit. **3. Additional L3:** Practice Clinical Champion watches a previously recorded (may be from current or previous L3 series years) or attends an additional L3 in-person. **4. Present a case at the INHALE ECHO:** Participating provider presents a case at one of the INHALE ECHO sessions. **5. Clinical Champion watches Vaping and Nicotine Addition video** located on the INHALE Learning platform. **6. Participating Provider** schedules and completes a consultation with the INHALE PharmD via the INHALE website.

5&6	Performance is calculated as an aggregate at the PO level, combining all BCBSM, PPO, BCN and Medicare Advantage patients with COPD and Asthma (adults/peds ≥2 yrs) as defined by the INHALE eligibility attributed to PCPs and SCPs participating in INHALE: **Scoring:** For INHALE POs with participating PCPs and SCPs, performance is calculated at the PO level using both PCP and SCP attributed patients. If an eligible patient is attributed to both a PCP and SCP within the same PO, the patient is only counted once in the measure. The measure is met for attributable patients if ANY provider (participating SCP, PCP, or non-participating provider) provides inhaler education at least once during the measurement year. OCS stewardship is measured utilizing BCBSM, BCN, BCBSM MA claims for ≥2 oral corticosteroids prescription fills during the measurement period for adult/peds asthma and COPD patients. The measure is attributable if any provider (participating SCP/PCP, or any nonparticipating provider) prescribes the OCS. **Reward Eligibility:** Providers who participate in BCBSM's Physician Group Incentive Program (PGIP) and INHALE are eligible for reimbursement in accordance with the Value Based Reimbursement (VBR) Fee Schedule. The VBR Fee Schedule sets fees at greater than 100% of the Standard Fee Schedules. The following Fee Schedules apply for participation in INHALE: >/= 88 to 100 Points = 107% VBR >/= 76 to 87 Points = 105% VBR >/= 64 to 75 Points = 104% VBR >/= 52 to 63 Points = 103% VBR >/= 40 to 51 Points = 102% VBR <40 Points = Not Eligible
7	Provide tobacco cessation counseling at least once in the measurement year to patients (asthma ≥13yrs or COPD patients ≥40 yrs) who are identified as tobacco users by ICD-10 diagnosis code. The 2% VBR uplift is not additive, meaning that providers that already receive VBR through another CQI (MIMIND, MCT2D, etc.) will not earn an additional 2%. Note: Preferred claim code to earn credit for this measure: Z71.6 (ICD-10) for Tobacco Cessation Counseling, or CPT codes: 99406 or 99407. Note: CPT cat II codes F400x have varied reliability and may not be captured via the claims, but when they are present, they will be counted toward the measure. No chart review will be conducted to support the use of CPT cat II codes for VBR.
8	INHALE practicing provider that serves on an INHALE committee (Executive, Pediatric, Data and Publications, ECHO) or nominates a patient to participate on the Patient Advisory Board, will receive bonus points. OR Participating Providers that present or sit as a member of a panel at an INHALE Regional or Collaborative Wide meeting will earn bonus points. A maximum of 10 points will be awarded even with multiple nominations, and/or presentations.
9	Provider sits as an active member on 2 INHALE committees (Executive, Pediatric, Data & Publications, or ECHO) for the duration of the measurement year.

Notes:

*SCP = Must be designated in the PGIP PA Tool as one of the following specialities: Allergist, Pulmonologist, Pediatric Pulmonologist

AND

For 3/1/2028, must be on the Winter 2027 and Summer 2027 Snapsohts and be in PGIP February 2028 to receive VBR.

*PCPs must be PCMH designated in the PGIP snapshot
