# Free Virtual Asthma Coaching

Available in English and Spanish languages

This 6-week virtual asthma education program helps people with uncontrolled asthma to better understand their condition and improve self-management skills. The program is guided by certified asthma educators.

## Benefits for Patients

- Learn how to keep asthma under control
- Practice correct inhaler technique
- Track asthma symptoms
- Stay motivated to self-manage asthma

## Benefits for Doctors

- Improve adherence to treatment plan
- Overcome time constraints with patients
- Support better health outcomes

*"I was dealing with my asthma symptoms as they would occur. I would let myself wheeze, not knowing how dangerous that was. Asthma coaching gave me the knowledge and confidence to control my asthma. It saved my life."*
