	Total Points Earned		
	Total Points Possible		12
	VBR earned (Yes/No)		

*Updated May 2, 2024 to remove requirement for Practice Assessment Survey (0 or 2 pts)—added to possible bonus points.

Practice Level Role Descriptions

- **Practice Liaison:** The Practice Liaison will be responsible for the operations of the program. This would involve making sure any required documents are reviewed and signed as well as having general oversight over the practice's participation. They would be responsible for forming the team at their practice and serve as the primary contact for the Physician Organization and Coordinating Center. The administrative lead would be responsible ensuring that all participation requirements are met and for disseminating information (such as upcoming meetings, important dates, etc.) from the Physician Organization and Coordinating Center.
- **Practice Clinical Champion:** The Clinical Champion will be responsible for disseminating performance/QI/educational information to relevant members of the practice and helping to advance best practices. The Clinical Champion would attend regional meetings so that they can take what they've learned at those and educate their practice. The Clinical Champion would also participate in training programs required by the Physician Organization and Coordinating Center. This role does not need to be filled by a physician but does need to be a licensed medical care provider (RN, RT, etc.).

The Practice Liaison and Clinical Champion may be the same person. A Practice Liaison/Clinical Champion should be designated for each practice unless otherwise approved by the Physician Organization and Coordinating Center.

INHALE Engagement Activities

- **Case Summary:** Submit a patient case summary on a specific patient with asthma or COPD which describes challenges, decision making, outcomes, resources used, to provide high quality asthma or COPD. A short form will be provided to submit a patient case; a case summary should take 15-20 minutes to complete. Case summaries should be germane to INAHLE initiatives.
- **Resource Library/Document Feedback:** Provide written feedback or meet directly with Coordinating Center staff on current resources available on the website, including the resource library, documents, or educational modules.
- **Best Practice Documentation:** Submit a brief description of initiative undertaken at a practice to improve asthma or COPD care. A short form will be provided to document the details of the practice setting and initiative undertaken.
- **Patient Experience Feedback:** Connect the Coordinating Center with a patient with Asthma or COPD that is willing to share their experience with this disease and/or provide feedback on patient-facing INHALE resources, initiatives, and long-term INHALE goals.

General Expectations

- Respond to requests from the Coordinating Center and your Physician Organization regarding INHALE related work in a timely manner (3 business days or as specified).
- If practice is sending data to MiHIN, ensure data fields are correctly populated. If practice is not sending data to MiHIN, make a reasonable effort to submit data.
